

**instructional videotape for teachers:
How to manage your class
and
Eliminate discipline problems forever**

Classroom management can be a challenge even for experienced teachers. Most of us have to tackle student discipline issues sooner or later. Teachers receive little formal training in this important and sensitive area and few master it. Here is a proven and effective tool to learn how to manage the classroom.

This lively and entertaining videotape shows you what they did not tell you at teacher's college.

After watching this video you will know:

- Effective classroom management strategies
- The 3 mistakes most teachers make and how to avoid them
- How to get respect from students
- The 3 most important words in classroom management
- How to stay in control of your class
- How to use body language
- How to dress for teaching
- How to plan and be ready for challenging situations
- What to do if a student loses his/her temper
- How to handle recess
- How to reward and provide logical consequences effectively
- How to deal with problem situations—a *step by step process*
- How to identify and manage the predictable responses of students being reprimanded
- How to handle “problem” individuals or groups—Where to start. How to control time, how to listen to students, students who “hate” your subject, working with parents and much more!
